<u>ECONOMIC INDICATORS</u>	
Economy	Tuvalu consists of a densely populated, scattered group of nine coral atolls with poor soil. The country has no known mineral resources and is almost entirely dependent upon imported food and fuel. Subsistence farming and fishing are the primary economic activities. Fewer than 1,000 tourists, on average, visit Tuvalu annually. Job opportunities are scarce and public sector workers make up most of those employed. About 15% of the adult male population work as seamen on merchant ships abroad and remittances are a vital source of income. Substantial income is received annually from the Tuvalu Trust Fund (TTF) an international trust fund established in 1987 by Australia, NZ, and the UK and supported by Japan and South Korea.
